

## **Take Control of Your Course!**

Introducing the first browser based content management system specifically designed to help you manage your golf course from pro shop to back shop. Our powerful system gives you the control over your tournaments, members, events and even your website content.

Update newsletters, send email broadcasts and gather tournament registration right from the comfort of your desk.

Take a tour of our product and see how easy it is for you to use. Visit our website at [www.websitecaddy.com](http://www.websitecaddy.com) or email us at [info@websitecaddy.com](mailto:info@websitecaddy.com) to find out how we can help you.

## **Services**

Website Caddy offers you complete service in the following areas when designing a professional looking website for your course:

**Graphic Design** - Most golf courses lack professional design and functionality. Website Caddy allows you to have your own customized Website solution for your club. Our team of graphic designers will work with you to incorporate the look and feel that best suits your clubs image.

**Content Development** - Whether you have existing content from a previous webpage that needs to be transferred over or your club needs content developed, our staff will make sure that your website portrays all aspects of your club's image in your own unique style.

**Customer Support** – In creating a new website for your course, our staff is committed to working with you step by step to help you achieve the look that is ideal for your club. Our highly qualified employees will help you every step of the way and are easily accessible via our toll free number (1.866.446.4625) or email.

## **Administrative Tools**

Our all in one solution was designed to manage all of your course needs. Here is a list of some of Website Caddy's key features:

**Content Management** - Website Caddy™ provides you with complete access & control over your website content. Our Browser Based system allows you to manage tournaments or edit your site from home or any remote destination with Internet access. With our straightforward management console even the most novice computer user can make changes to the website content.

**Event Scheduler** - Our event scheduler posts and archives all of your events by month and date. You can also email your entire membership list with the single click of a mouse. Now everyone can be up- to-date on all of your clubs events.

**Online Tee Time Booking** – Your members won't have to be put on hold any longer to book their tee times. Our online booking system allows members to search for available tee times and book online. Courses can also collect online payments.

**Online Score Reporting** – Members can login on your web page with a simple username and password allowing them to report their scores with our online scorecard. The system automatically archives rounds, calculates handicaps and tracks statistics.

**Tournament Administration** – Tournament administrators can now manage their entire tournament through the Website Caddy system. Players and teams can register and pay online. This provides administrators with all the information they need to create labels and send email announcements. Each tournament is also archived in the system.

### **Benefits to your Members**

Website Caddy allows golf courses to offer their members numerous advantages. Here is a list of some of the benefits that we can provide your membership:

- Online membership registration & payment
- Automatic emails regarding club news and events
- Online Tee Time booking
- Online Tournament registration & payment
- Administrative tools to manage all aspects of their tournaments
- Online forum for tracking yearly scores, handicaps and statistics
- A unique web identity that they can be proud of.
